

1. Install the Metamask extension on Google Chrome using <https://chrome.google.com/webstore/detail/metamask/nkbihfbeogaeaoehlefnkodbefgpgknn?hl=en-GB>
2. Clicking on the “add to chrome” will open a webpage
3. Select “Create New Wallet” or click on “Import Existing Wallet” if you already have one.

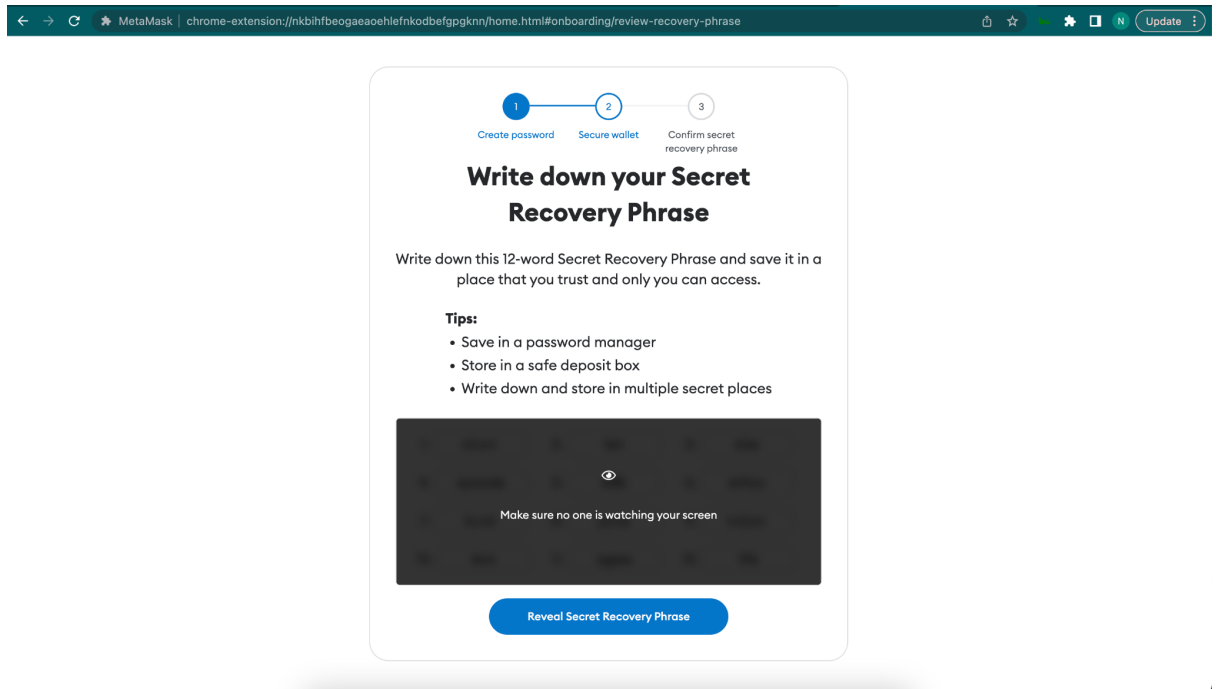

4. Accept terms & conditions.
5. Then choose a new password for your wallet and click on “create a new wallet”.

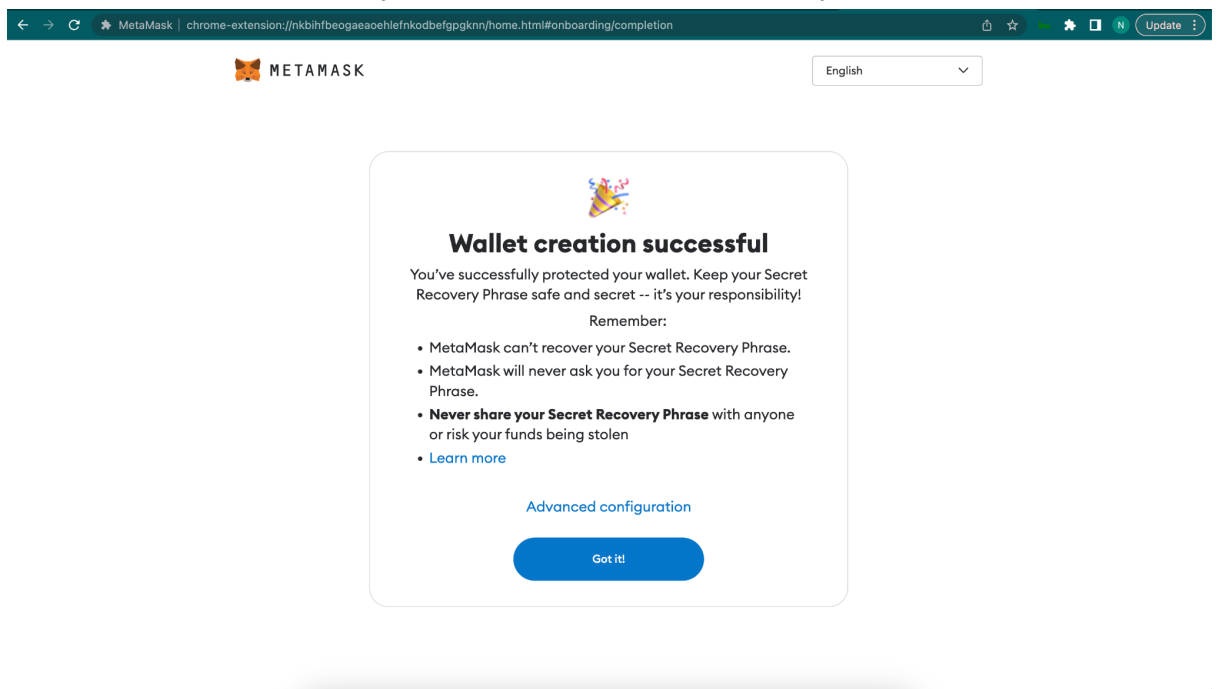

6. Go with the recommended flow to generate a secret word phrase which will be used as a recovery password.

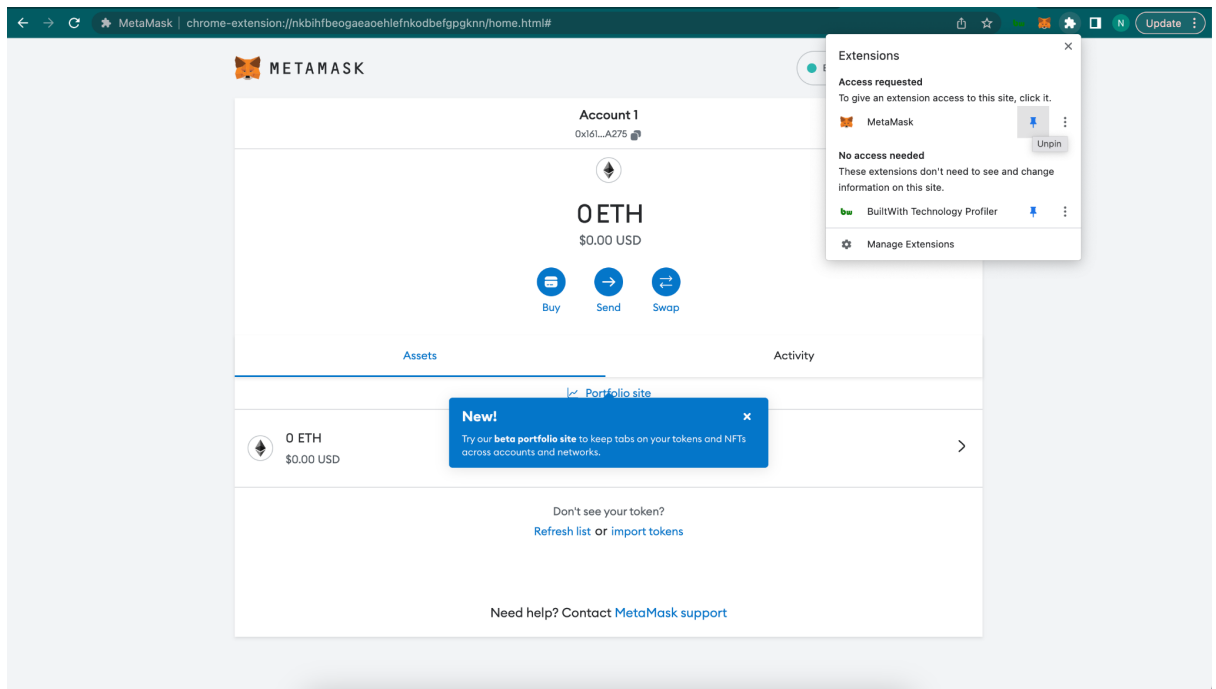

- Click on “Reveal Secret Word Phrase” to see a 12 words phrase. Copy it and keep it safe for the future.

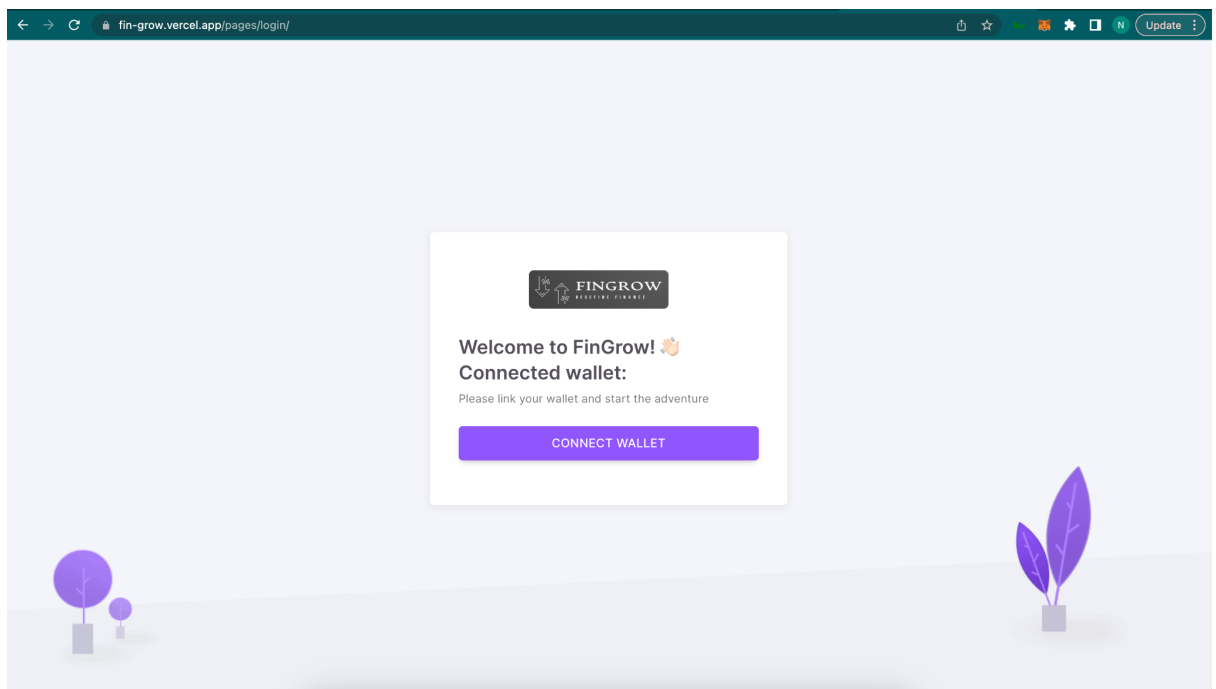

- Click “Next” and complete the phrase you generated in the last step.
- Tada! You have now created your blockchain wallet successfully.

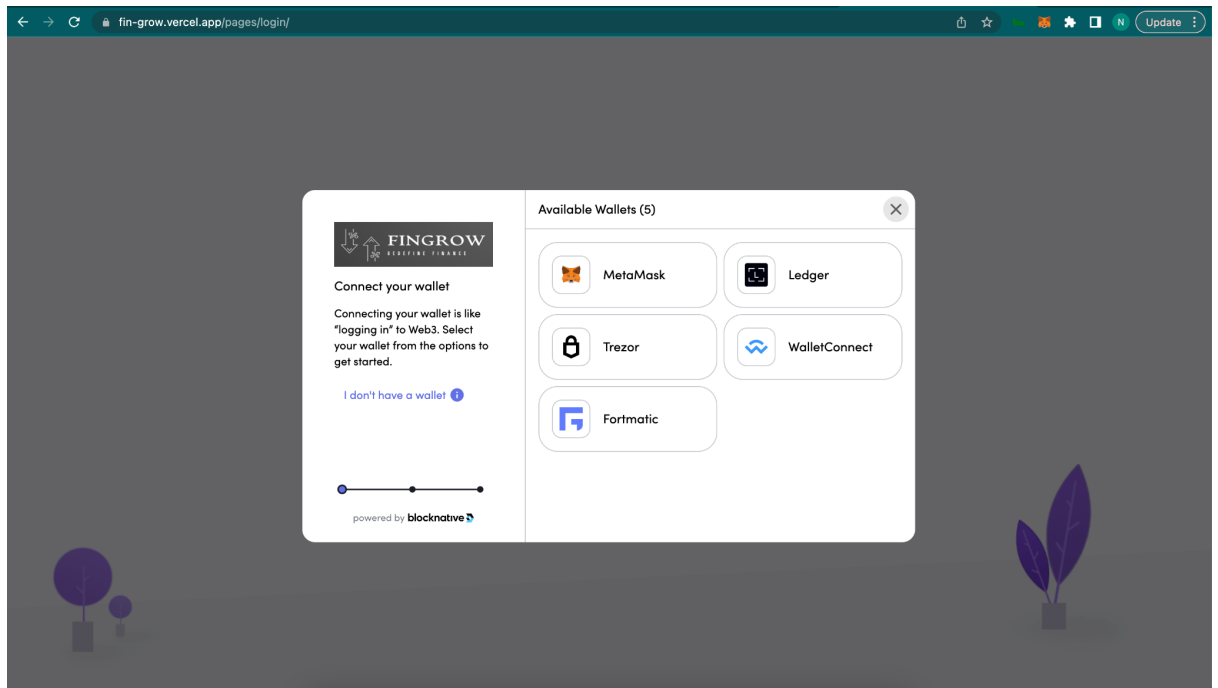

10. Now from the list of extensions pin the Metamask extension so that it will always be visible on chrome tabs.

11. <http://localhost:3000/pages/login> or <https://fin-grow.vercel.app/pages/login>
12. Click on “Connect Wallet”

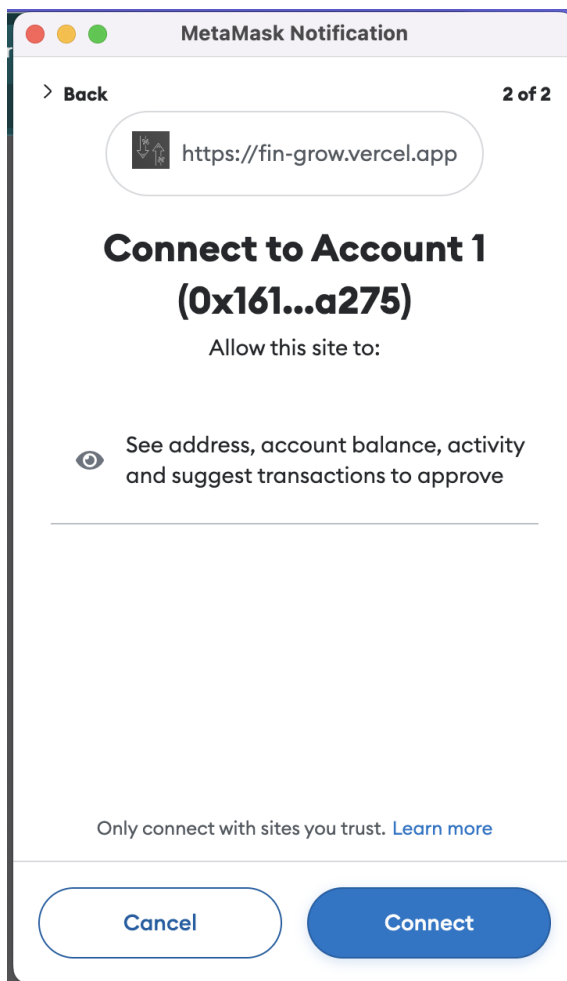

13. Click on “Metamask” from the list of wallets.

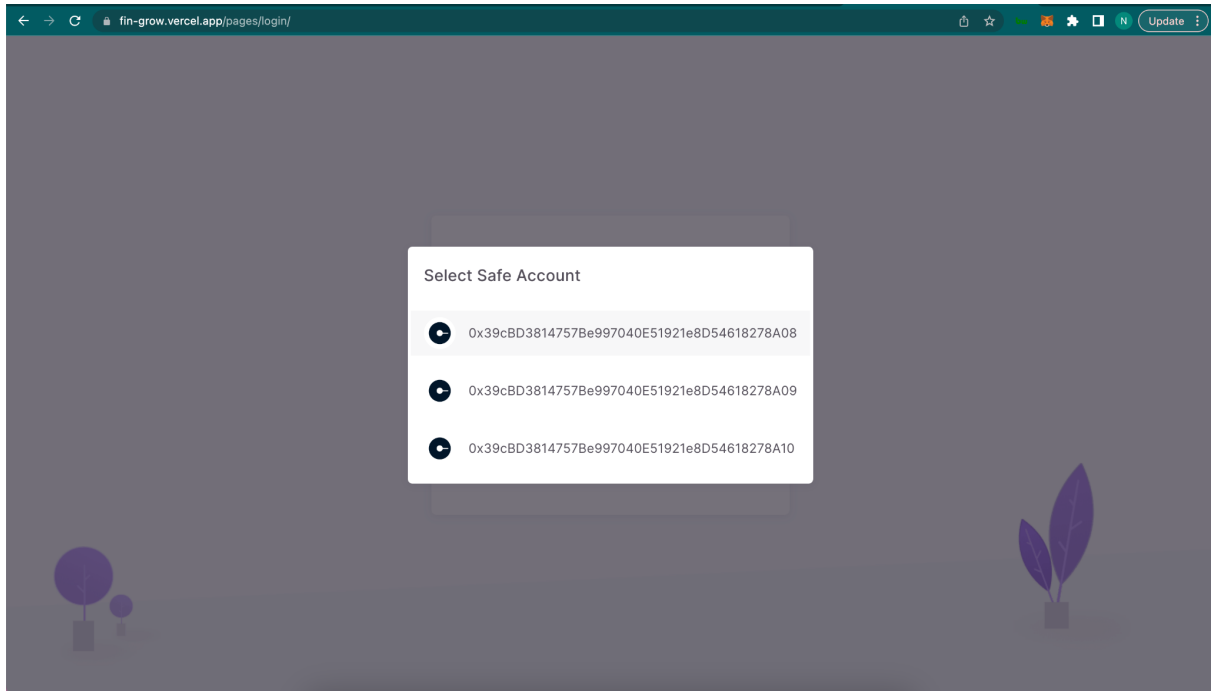

14. Now, the MetaMask extension pops up a window to authorize the FinGrow app to access your public key accounts.

15. Click on “Next” & then “Connect”.

16. Select one safe address which pops up after authorizing using connect button.

17. Now you will be redirected to the Transactions page.
